FAST ENTERPRISES

Located in Manitoba, the crew at Fast Enterprises has been involved in the snowmobile industry, at virtually all levels for more than twenty years. Founded by Karl Fast in 1993, the company serves as the exclusive Canadian Distributor and Marketing arm for Millennium Technologies – one of the largest and most respected cylinder re-plating companies in North America. We caught up with Fast's Kelly Robinson while at the Toronto International Snowmobile, ATV, and Powersports Show, and got the low down on the company.
